Recommendation:

Costco can not get color paper delivered. We would have to order online and go get it
The lowest they will go is \$60.00 from the online store.

You can not find color paper anywhere on the internet lower than \$60.00
The other companies are offering this because we would buy a truck load of white.

Most of the schools are looking for color paper and some have been trying to write purchase
orders for upwards of \$9.00 a ream. We need some In stock to reduce cost.

I would further recommend purchasing the paper from Contract Paper to get our overall savings.
